Alfido Tech — Sales Performance Report

Revenue, regional, category & product analysis · Order data 2015-01 to 2018-12

Executive Summary

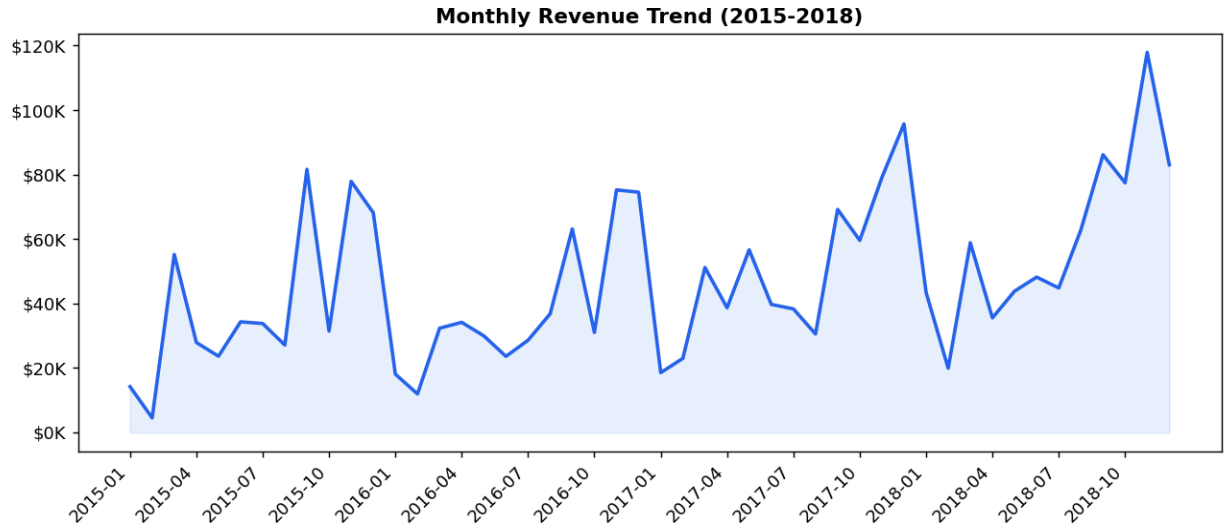

The dataset covers 9,800 order lines across 4,922 orders, 793 customers and 1,861 products, generating $2,261,537 in total revenue. Revenue grew every year from 2015 to 2018, with a pronounced seasonal peak in September through December and a trough in January-February. Technology narrowly leads category revenue, the West and East regions substantially outperform South and Central, and a small set of high-ticket machines (copiers, binding systems) drive top-line product revenue while dozens of sub-$20 commodity office supplies contribute very little.

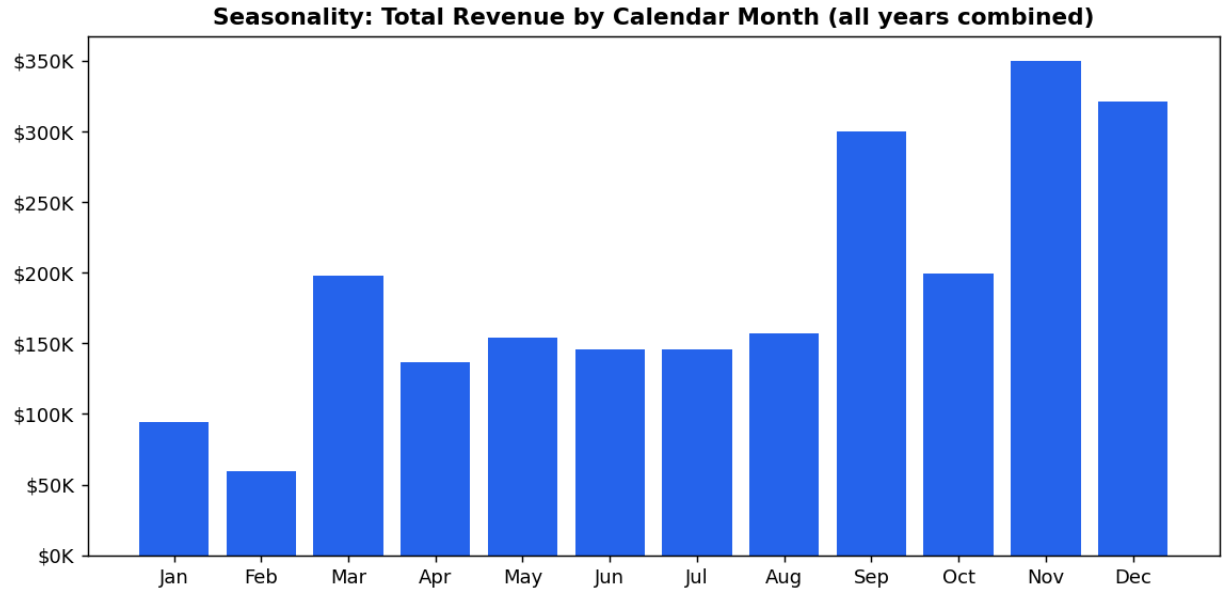

> **Data limitation:** the source file provides order-line revenue (Sales) only — there is no cost/profit, quantity, or web/funnel traffic data. Profit margin and conversion-rate KPIs are therefore not included; the closest available revenue-based KPIs are used instead, and adding cost and traffic data is recommended as the top next step (see Recommendation 5).

Key KPIs

Metric	Value
Total Revenue	$2,261,536.78
Total Orders	4,922
Total Order Lines	9,800
Average Order Value (AOV)	$459.48
Average Line Item Value	$230.77
Average Shipping Days	3.96
Unique Customers	793
Unique Products Sold	1,861
Revenue per Customer	$2,851.87

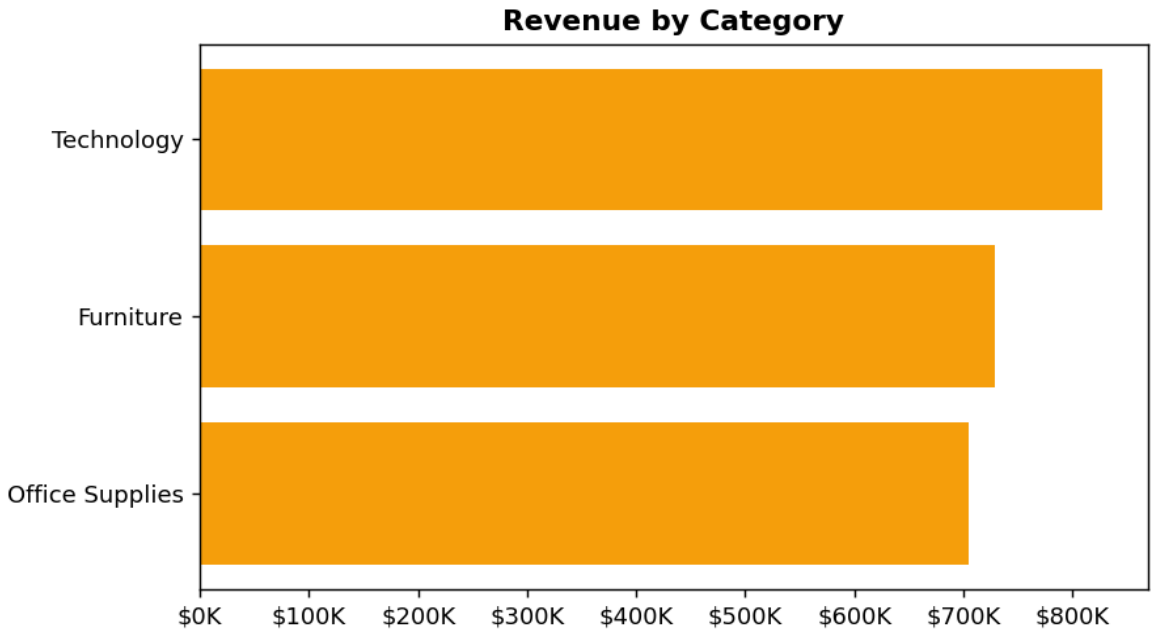

Revenue Trend & Seasonality

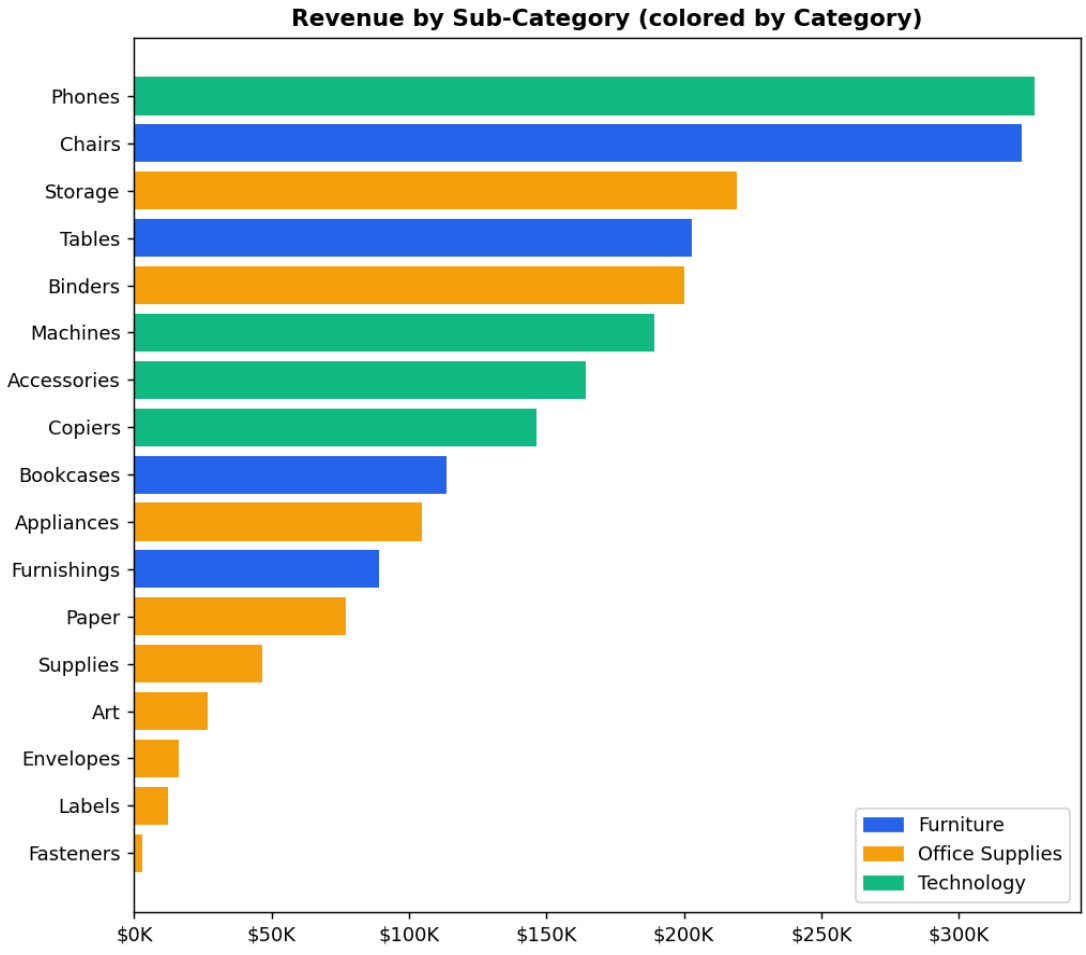

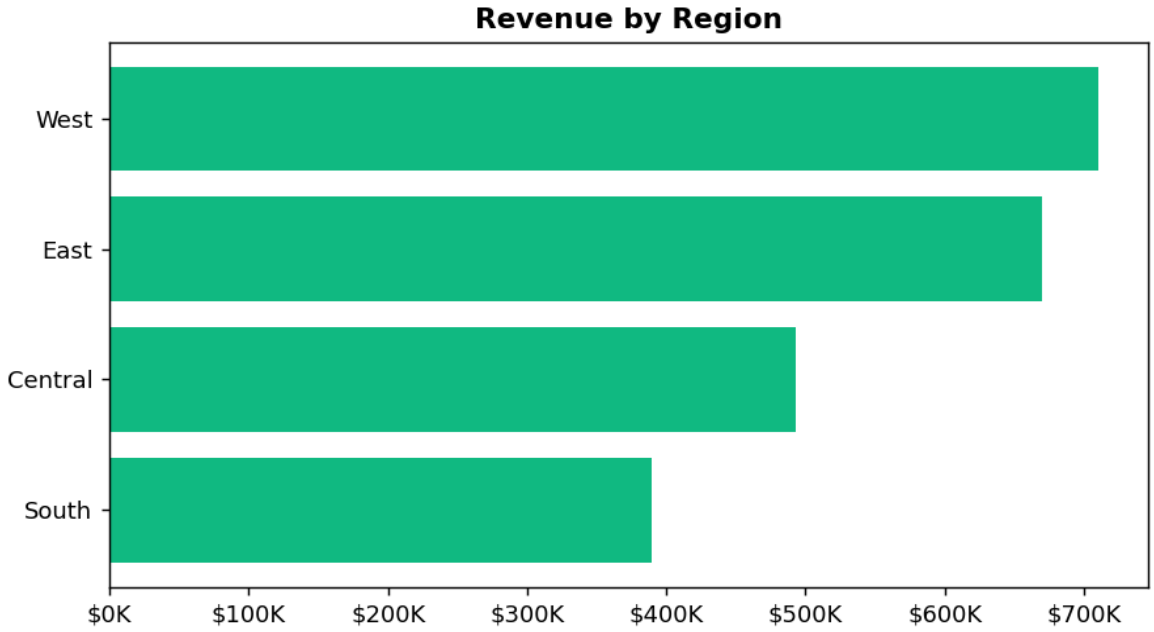

Revenue rose from $479,856 in 2015 to $722,052 in 2018 (+50%). Peak months are Nov, Dec, Sep, together contributing 43% of annual revenue; January and February are consistently the weakest.

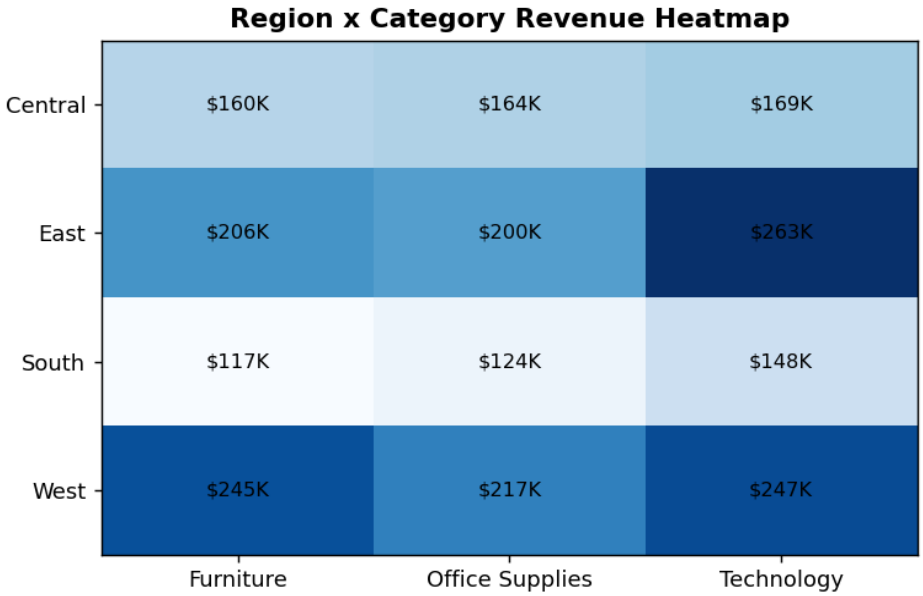

Category & Sub-Category Performance

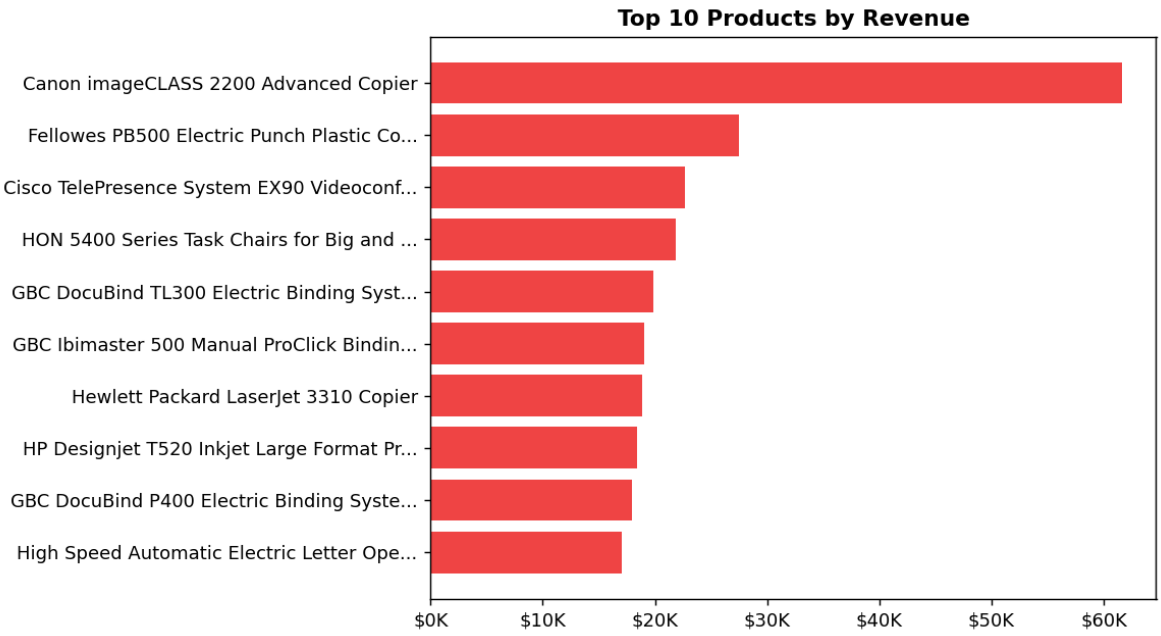

Regional Performance

West leads with $710,220 in revenue; South trails at $389,151 — a gap of 83%.

Best & Worst Performing Products

Bottom 10 products by revenue (min. 3 orders):

Product	Revenue	Orders
Acco Economy Flexible Poly Round Ring Binder	$8.35	3
Hoover Replacement Belt for Commercial Guardsman Heavy-	$9.77	4
Storex Flexible Poly Binders with Double Pockets	$10.82	3
Computer Printout Index Tabs	$11.09	4
Maxell 4.7GB DVD+R 5/Pack	$11.68	5
OIC Thumb-Tacks	$13.00	3
Brites Rubber Bands, 1 1/2 oz. Box	$13.07	3
Design Ebony Sketching Pencil	$13.62	3
SANFORD Liquid Accent Tank-Style Highlighters	$14.20	3
OIC Binder Clips, Mini, 1/4 Capacity, Black	$15.62	5

Tactical Recommendations

1. Double down on Q4 (Sep-Dec)
These months generate ~40% of annual revenue. Pre-position inventory for top Technology SKUs 6-8 weeks ahead of the September ramp and build a dedicated holiday campaign.

2. Run a Jan-Feb demand-smoothing promotion
Revenue falls over 70% from December to February. A bundled 'office refresh' promotion or discount cycle can flatten this seasonal trough.

3. Rationalize the long tail of low-value SKUs
Dozens of sub-$20 commodity items (binders, tacks, rubber bands) contribute negligible revenue per line. Bundle into kits or reduce shelf space in favor of high-revenue Technology items.

4. Target marketing spend at South/Central regions
These regions trail West/East by 35-80% in revenue. A regional push replicating the product mix that already works in the strong regions is a faster lever than growing already-strong regions further.

5. Capture cost, quantity and traffic data going forward
This dataset has revenue only — no cost, quantity, or funnel data. Adding COGS per SKU and visit counts is the top reporting priority to unlock profit margin and conversion-rate tracking.
